

## Brazil Severs Diplomatic Ties With Castro Cuba

**NO DE JANEIRO**, May 14 (UPI)—Brazil has broken off diplomatic relations with Cuba, increasing the likelihood of effective inter-American action against Fidel Castro's communist regime. Only four of the 20 Latin American nations still are officially on good terms with the Castro regime—Bolivia, Chile, Mexico and Uruguay. The foreign ministry, announcing the break with Castro late Wednesday, said this country can no longer tolerate Cuba's "interference in the internal affairs of Brazil." Castro's government has been using relations with Brazil—particularly in recent months—to cover the propaganda activity of his agents . . . "a foreign ministry communiqué

"The regular dialogue through diplomatic channels was being replaced by an inadmissible understanding with minority groups incompatible with the traditional Christian and democratic convictions of our people." The break had been expected ever since anti-Communist generals and governors joined forces to oust leftist President Joao Goulart early last month.

The diplomatic break by Latin America's largest nation represents an important shift in the Inter-American line up against Castro. Under Goulart and his predecessor, Janio Quadros, Brazil's "hands off" policy often prevented firm inter-American action against Castro's subversion.

However, he said, "it is the right and privilege" of a U.S. citizen always to question major deployments of the United States and its allies.

He also commented on the possibility of a U.S.-troop-reaction in Korea as a result of the successful airlift operations conducted recently in the United States and Europe.

"It is too early to say if there will be a major change in Korea," he said.

Church's comments were in an article in "The Nation" the first week of April, in which he said it is:

"We have made the South Korea any combat-ready and equipped with the just now required equipment. It is now time to see if we have a match for the North Korean forces. If it is not the American forces, we are entitled to know how and where their money has been spent."

He did continue presence of

Funds Asked to Eye Salmon Falls Project

**WASHINGTON**, May 14 (UPI)—Sen. Frank Church, D.Ida., has urged the Senate subcommittee on public works to approve more than one million dollars for reclamation bureau projects in Idaho. The major request was for \$725,000 for the Mann creek project near Weiser. The remaining \$316,200 would be used to investigate projects for supplemental irrigation and new irrigation in various parts of the state, Church said.

The Idahoan said funds are needed by the bureau to complete an investigation of the water shortage on the Salmon Falls creek irrigation tract.

"Millions of dollars were invested before it was discovered there was not enough water to sustain," he said. "Many wells failed and those that remained have held on in a precarious position, waiting for the date of the project to be remedied."

He said the reclamation bureau "will be able to withstand striking distance of a solution and could complete the investigation with this appropriation."

Church said the funds requested include money for investigating the Snake river recharge project.

It may be possible to channel flood waters underground for use further downstream while still offering protection to upstream property," he said.

He said the Mann creek application would be used to locate land prepare specifications, build a fish trap and complete other preparations for the

High School Seniors Line Roof With Borrowed Signs

A high school graduation class of students and parents tradition. For the past four years, at least, upcoming seniors at Twin Falls High School have adorned their roof of the school.

When school personnel and students arrived at the high school Thursday morning, signs reading "class of '64" were lined up along the edge of the roof.

Signs holding clean rest rooms, ashtrays, silverware, vegetable carts, steam cleaning—two men only a few—were placed on the roof sometime during the night by a group of senior stu-

FIGHTING THE BLAZING fire which sprang up in the wake of a crashed air force jet Wednesday are citizens and volunteers in the Woodlawn sports housing tract in the north side of Las Vegas. The F-105 jet completely destroyed seven homes and killed five persons, including the pilot, First Lieut. Maynor L. Hobert, 28, Port Arthur, Tex. (AP Wirephoto)

## Five Killed as Jet Plows Into Las Vegas Housing Development

**SACRAMENTO**, May 14 (UPI)—Five persons died when an F-105 fighter plane plunged into a new housing development where housewives were hanging out laundry and children were playing on a sunny afternoon. Moments after takeoff Wednesday from nearby Nellis air force base, the jet lost altitude, wavered and then knifed into the tract. The plane exploded, spewing flames over a wide area.

Seven dwellings were destroyed. The plane plummeted to earth at the far edge of the development, just short of a cleared area the pilot was fighting to reach.

The dead: First Lieut. Raynor L. Hobert, 26, pilot, Port Arthur, Tex.; Louie E. Price, 31, and her daughter, Teressa, 3; two children of the Paul Lowry family, Dartmouth, 3, and Josephine, 3 months. Aside from Hobert, all were residents of the tract.

An unidentified truck driver gave this account: "I was rounding the corner and could see the plane coming in nose up and tail down. It struck the first house with the tail flame and skidded across the rooftops to other houses."

Two weeks ago, in an interview, Brig. Gen. Boyd Edwards, Nellis commander, had warned contractors that building homes close to the air base was "courtly" mistake. The development is seven miles away but in the path of runways, those on the scene said. No homes are in the \$15,000 price range.

Vincent Rohde, another eyewitness, said that when the plane hit "it was like a bubble filled with water. It was just a big splash. I saw two women hanging out clothes where it hit. They disappeared. I heard a woman scream. There was a tremendous heat wave. I'll never forget that scream."

Authorities evacuated 20-extensive studies have been made on the state's tax structure by competent and dedicated people, and their conclusion has been that initiating of a sales tax, with reduction of both income and property tax, is required to provide the broader to-attract-industry and growth," Grange stated.

Recent industrial prospects were cited, and the tax differential between Idaho and neighboring states.

Grange told the group that while there are other deadlocks to industry in Idaho such as distance from markets, the availability of labor in the state offset many of these, if not for the tax problem.

## Area Judge Addresses Lodge Meet

WENDELL, May 14 — C. E. Spencer, Wendell justice of the peace, spoke to the members of the Masonic lodge on law and court proceedings Monday night at the Masonic temple.

He called attention particularly to traffic violations and small claims. His stated plans are under way to clarify one of the cumbersome laws regarding such cases and to make such laws more uniform. His talk was followed by a question-and-answer informal discussion.

Walter Kelley reported the temple grounds have been leveled and the ground is ready for seeding. Two evergreen trees have been planted on the grounds.

An invitation was read from Twin Falls Lodge No. 45 AF and AM to attend the Elk night observance beginning at 8 p.m. Saturday with a social hour for Masons and their wives at the commanders room of the American Legion Hall. At 7 p.m. a dinner will be served.

The Masons will convene at 8 p.m. at the Masonic temple and women will be entertained in the temple basement.

The entered apprentice degree will be given with members of the Elk lodge in charge using the Neva ritual.

Refreshments were served by L. W. Parr, Douglas Bradshaw, Mr. William Irons and Roland Jacky.

## Area Student Wins Honor At Utah State

KIMBERLY, May 14—Acle J. Clements, son of Mr. and Mrs. Marion O. Clements, Kimberly, is the valedictorian of the Utah State university college of agriculture and will deliver his valedictory address at the Awards and Honors convocation at 7 p.m. Saturday.

Clemente was named the outstanding junior in agriculture at Utah State university last year and received the Ralston Purina \$400 scholarship.

He is a nominee for Phi Kappa Phi, and is a member of Alpha Zeta agriculture honorary and of Alpha Tau Alpha, a national honorary for prospective teachers of vocational agriculture.

He has been president of the USU chapter of A.T.A.

## Magic Valley Funerals

TWIN FALLS — Funeral services for John S. Martin will be held at 2 p.m. Friday in the mortuary chapel of the Rev. Rev. Zim Rupert. Final rites will be held at Sunset Memorial park.

BURLEY — Funeral services for Melvin (Jim) Pennermaker will be held at 2 p.m. Friday in the McCulloch funeral home chapel by Bishop Verly Chasley. Concluding rites will be held at Pleasant View cemetery. Friends may call at the McCulloch funeral home Thursday evening and Friday until time of service.

GOODING — Joint funeral services for Mr. and Mrs. Wayne Hudelson will be conducted at 3 p.m. Friday at Thompson chapel, Gooding, by the Rev. Dwight E. Wilcher, pastor of the Gooding Methodist church. Final rites will be conducted in Elmwood cemetery. Masonic rites will be held for Mr. Hudelson.

BROSHONE — Joint funeral services for Samuel W. Manning and his son, Billy Manning, will be conducted at 3 p.m. Saturday at the funeral chapel, Shoshone, by the Rev. Wm. W. Harris, pastor of the Shoshone Methodist church. Concluding rites will be held at Shoshone cemetery.

JEROME — Funeral services for Mrs. Alice Fern Groves, will be conducted at 2 p.m. Saturday at Hove funeral chapel by the Rev. Ralph E. Pothegill, pastor of the Jerome Methodist church. Graveside rites will be held in Minto-Preswater, Ore., at 11 a.m. Monday. Friends may call at Hove chapel Thursday, Friday and until time of service Saturday.

TWIN FALLS — Services for Mrs. Nellie Pauline Schenkel will be held at 2 p.m. Saturday in Twin Falls First Baptist church by the Rev. Ernest Haeselblad. Final rites will be held at Sunset Memorial park. Friends may call at White mortuary Friday and until noon Saturday.

Mikoyan will spend two weeks in Japan as head of an 11-member Soviet parliamentary delegation.

SISTER DIES — Wednesday, May 14 — Mrs. Lester Cooley received word Wednesday of the death of her sister, Mrs. Vera Wormley, Sunland Nursing home, Sunland, Calif. Mrs. Wormley had been ill for a long period. Funeral services will be held at 10:30 a.m. Saturday at Marshalltown, Idaho.

## Weather, Temperatures

MAGIC VALLEY — Mostly sunny today and Friday. Westerly winds 10 to 20 miles an hour this afternoon. Clouds tonight. High both days at 76°. Low tonight 55°-65°, except Camas prairie 56°-64°. Wind in 30s. Outlook is chance of showers Saturday from weather bureau with 55 per cent humidity. At 7 p.m. thermometer next disturbance. Temperatures at 8 a.m., 53 at Jerome, 55 at T.F. laboratory, with 60 per cent humidity, 56 at Rupert, 54 at Fairfield, 54 at Buhl, 53 at Castleford, 52 at Woodruff, 53 at King Hill; at noon, 59 at T.F. weather bureau, with 57 per cent humidity. Barometer: 30.10. Soil temperatures: At T.F., four inches, 64°; eight-inch, 61°; 20-inch, 53°; 24-inch, 47°; three-inch level: At Buhl 56°, At Castleford 55°, At Wendell 51°, At King Hill 53°.

**SYNOPSIS AND AGRICULTURAL SUMMARY**

The cool front that moved across the northern part of the state from yesterday, yesterday pushing eastward, and now extends from the eastern Dakotas through Wyoming, northern Utah, southern Nevada and out to sea by way of southern California. A few isolated showers accompanied this disturbance but were confined to mountain terrain with only partly cloudy skies the effect over valley areas. The cold upper level trough continues to be stalled off the West Coast, allowing mostly sunny skies and seasonal temperatures to prevail over southern Idaho through Friday and possibly Saturday.

Temperatures were a few degrees lower following the cool front over the Boise valley and this minor cooling will be noted over western Idaho today. However, daytime temperatures will continue on the pleasant side, with afternoon readings ranging from the upper 50s over Camas prairie to the 70s over the rest of the agricultural sections of southern Idaho today and Friday. Minimum temperatures will hold off freezing temperatures, with only a slight chance of frost during the afternoon hours, but will diminish in the evenings and be very favorable for spraying operations during the early-morning hours through the next two to three days.

Good growth conditions will prevail through Saturday, with favorable progress being made in pasture and range stands and in newly planted row crop stands. Soil temperatures will continue in the upper 50s to mid 60s at the thirteen-four-inch depth. Soil moisture supplies, although adequate in many sections, will require irrigation scheduling to be maintained as moisture losses will continue to increase under more seasonal temperatures.

# NATIONAL WHIRLIGIG

By ANDREW TULLY

**WASHINGTON.** May 14.—Some of the more overzealous proponents of civil rights for the Negro were reminded by a supreme court decision the other day that the court's school desegregation ruling 10 years ago works both ways.

These zealots have always preferred to read the 1954 decision as banning only the exclusion of children from schools on the basis of race. But that decision also declared that children may not be assigned to schools because of the color of their skin. What the supreme court did this time was to refuse to review a lower court decision that school zones which result in de facto segregation need not be changed to force segregation if those zones were drawn for reasons other than racial. The case in point involved the city of Gary, Ind., where housing patterns have created big Negro and white neighborhoods, with the result that most Negro and white children attend separate schools.

NOT DELIBERATE.—Quite properly, the seventh circuit court of appeals rejected the NAACP's demand that the situation must be eliminated by trifling means—that is, by transporting both Negro and white children of their neighborhood schools to others. The circuit court held that the 1954 decision bars only segregation deliberately imposed by a school board or state, and that in Gary the school boundaries were drawn on the basis of density of population and to minimize the distances the children would have to travel.

This was the only possible ruling; indeed, the NAACP did not challenge the basis on which Gary's zones were drawn, but simply—and baldly—demanded that the zones be changed anyway, merely to force integration on both Negro and white children whether it made sense or not.

It makes no difference what rules are used, but they must apply alike to both government-owned and privately-owned facilities. The same rules of bookkeeping must apply and the same tax treatment must be accorded all firms, whether public or private. It's not an unreasonable proposal because competitors in all sorts of businesses operate under those conditions all the time. Under such circumstances of competition, businesses strive to gain advantage through sharp purchasing, better merchandising practices, more efficient use of space or perhaps more alert and smarter personnel.

The various regulatory boards and commissions already exist to supervise operation of both public and private power firms. All that's needed is legislation to PERMIT these boards and commissions to have supervision of the government-owned and operated facilities.

Setting the rules of operation is of no consequence; it makes no difference whether the firms are taxed heavily, lightly or not at all—so long as the rules and rates of taxation apply to all firms alike. Likewise, it makes no difference whether the power firms are supposed to show profit or are permitted to operate at a deficit—so long as all firms are permitted the same treatment. Also, if the firms have to borrow money, both public and private firms should get it from the same source, pay the same interest, under the same terms. So long as there is going to be regulation, it must be stand-

ardized.

Naturally, maximum rates must be specified to protect John Q. Public, but there could be considerable leeway in minimum rates. For instance, if either a public or private firm discovered a new way to economize without hurting service, the firm should be permitted to pass the savings along to the customer.

One thing is certain: Equal treatment of all electrical firms would end the public vs. private power argument. And those persons who are familiar with government operation and all its wastes are convinced it would put the government out of the power business for once and all. Whenever government invades a field of private business, it needs a subsidy or special advantage to exist.

Always, it's the taxpayer who makes up the difference, frequently to his own disadvantage.

## PRECAUTIONS NEEDED

Special precautions are needed to protect the lives of those who use the nation's airlines. A madman bent on self-destruction or perhaps murder for personal gain through insurance cannot be permitted the chance to take the lives of innocent persons whose only crime is purchasing a ticket aboard the wrong plane.

The recent tragedy in California illustrates the possibilities only too well. Perhaps no one will ever know precisely the motivation for killing the pilot of a plane carrying 34 persons. Investigation may disclose the gunman was warped mentally or it may be determined that gambling losses provided the motive. If it's even possible there was some sort of bizarre plot.

All of that is beside the point. There must be some means to prevent passengers from taking firearms or explosives aboard a plane. Steps have to be taken and soon—to eliminate any possible threat to the lives of airline passengers.

Airlines are a special case. A gun carrying passenger could run wild on a bus or train—even shoot the bus driver or the train engineer—and still only a few persons would be killed or injured. But the same situation aboard an airliner almost guarantees 100 per cent fatalities. It can't be permitted to happen.

Surely there can be some simple mechanical or X-ray device to detect such instruments of death as firearms or explosives on passengers before they board an airliner. It isn't feasible to search every passenger and all the luggage, but there must be a means of keeping those bent on suicide or homicide off airliners.

Such precautions are becoming increasingly important with the newer jetliners capable of carrying more and more passengers.

Washington, D.C. Journal.

## 65,000 TOO MANY WORDS

Reading the newspaper we came upon this paragraph:

"At the age of 4 the average child has a basic vocabulary of 8,000 basic words. At the age of 6 he knows 9,000. At the age of 10 he is able to recognize and understand 34,000 words. But the average adult has a total vocabulary of only about 50,000 words. This means the adult learns new words only about 1/100th as fast as the child."

"We'll just take the writer's word for it that we know only 50,000 words; there isn't time, this morning to count."

Besides, 50,000 words should be quite enough for normal consumption; we've always felt it was the order of the day which the words were strung that was important anyhow. There's an old saying that the mule also has the preacher same words: They just use them in different order and with different emphasis.

## POT SHOTS

DON'T WRITE IT OFF

Photo:

The high school parking lot looks like a convention must be going on out there all the time.

And don't look now, but some of those cars parked around our two junior high schools don't belong to the teachers.

What's got me going now is whether the school board will have to make regulations about children driving cars to our elementary schools.

There was once a political slogan that went, "Two cars in every garage, a chicken in every pot, or something like that. We passed the automotive goal a long time ago and now we're working toward an automobile for every person, man, woman and child."

And when we reach that goal, there'll be no place to drive them, and even less space for parking!

(Twin Falls)

THERE ARE DRAWBACKS

Whenever there's some sort of improvement, it seems there must be some sort of drawback. Pot Shots has in mind, right at this moment, the recent city effort to smooth some alleys.

A gender ran down the alley

behind the Pot Shots residence and did a real nice job of smoothing the surface. It looks much better.

The drawbacks? Yep! Within a few days after the grader made its trip down the alley, Pot Shots was making arrangements to have three flat tires repaired. It's just a guess, but we sort of imagined the grader stirred up the surface and churned up to the surface all the buried nails, pins and everything else capable of puncturing a tire.

But understand there's not one word of complaint about that nice smooth surface in the alley!

KITTENS FOR KIDS DEPT.

Pot Shots:

Four fluffy, long-haired, beautiful kittens need homes. Phone 733-4229 or pick them up at 457 Borah Ave.

# MARQUIS CHILDS WRITES ON WASHINGTON

**WASHINGTON.** May 14.—American reconnaissance U-2 planes continue high-level flights over Cuba. Can the Castroites shoot those planes down as Fidel Castro has threatened? The hard truth, insofar as this observer has been able to discover, is that no one really knows the answer. If a U-2 were shot down instant pressure for military retaliation against Cuba would follow. Of that there can be no doubt.

Itchy trigger fingers in the Pentagon would take it as an excuse to do what has long been the goal—clear communism and subversion out of Cuba. Whether the President and the secretary of state in the midst of an emotional crisis would have any option is uncertain.

While differing perhaps in degree of gravity, the seven circuit court of appeals rejected the NAACP's demand that the situation must be eliminated by trifling means—that is, by transporting both Negro and white children of their neighborhood schools to others. The circuit court held that the 1954 decision bars only segregation deliberately imposed by a school board or state, and that in Gary the school boundaries were drawn on the basis of density of population and to minimize the distances the children would have to travel.

It makes no difference what rules are used, but they must apply alike to both government-owned and privately-owned facilities. The same rules of bookkeeping must apply and the same tax treatment must be accorded all firms, whether public or private. It's not an unreasonable proposal because competitors in all sorts of businesses operate under those conditions all the time. Under such circumstances of competition, businesses strive to gain advantage through sharp purchasing, better merchandising practices, more efficient use of space or perhaps more alert and smarter personnel.

The various regulatory boards and commissions already exist to supervise operation of both public and private power firms.

All that's needed is legislation to PERMIT these boards and commissions to have supervision of the government-owned and operated facilities.

Setting the rules of operation is of no consequence; it makes no difference whether the firms are taxed heavily, lightly or not at all—so long as the rules and rates of taxation apply to all firms alike. Likewise, it makes no difference whether the power firms are supposed to show profit or are permitted to operate at a deficit—so long as all firms are permitted the same treatment. Also, if the firms have to borrow money, both public and private firms should get it from the same source, pay the same interest, under the same terms. So long as there is going to be regulation, it must be stand-

ardized.

Naturally, maximum rates must be specified to protect John Q. Public, but there could be considerable leeway in minimum rates. For instance, if either a public or private firm discovered a new way to economize without hurting service, the firm should be permitted to pass the savings along to the customer.

One thing is certain: Equal treatment of all electrical firms would end the public vs. private power argument. And those persons who are familiar with government operation and all its wastes are convinced it would put the government out of the power business for once and all. Whenever government invades a field of private business, it needs a subsidy or special advantage to exist.

Always, it's the taxpayer who makes up the difference, frequently to his own disadvantage.

The real march began in the 1930's when the National Association for the Advancement of Colored People decided on a strategy which was crowned with success.

This was the strategy: Bit by bit, case by case, fight the way up to the supreme court about the future when he thought about the condition of the Negro in America.

He said: "I tremble for my country when I reflect that God is just."

If it had not been for that court's decision of 10 years ago—the American Negro might still be suffering discrimination in comparative silence for the law or the court's interpretation of the law—was against him.

Police would probably have felt freer to smash Negro protest because no effective measures are being taken to protect them.

On October 1, 1962, it is important, therefore, to try to explore Cuban capabilities and, even more shrouded in mystery, Cuban intentions.

The intelligence community in Washington believes—under the word believes—that Moscow has kept one of the keys essential to operate the advanced ground-to-air missiles still in Cuba. This is the type of missile that shot down the U-2 overflying the height of the 1962 crisis. Contrary to reports unofficially put out, these missiles are still in

when a sharp turn is made and when driven on a slope or on rough ground.

Although they go only about 10 miles on level ground, a person who is ejected from a car travelling at this speed can sustain a severe injury to his back or neck and, if his head strikes a metal frame, a fracture of the skull or brain.

When the vehicle slows down, a greater speed is attained and any injury sustained would be more serious. Because so many of these carts run off narrow bridges, some clubs are widening their bridges and providing them with guard rails.

Another hazard—one that claims the lives of many golfers each year—is lightning. Golfers realize that the greatest danger of being struck occurs during the storm but just preceding it.

With you see a storm approaching, don't wait for it to break and don't seek shelter under a lone tree because lightning always strikes the highest target.

Furthermore, the ball may stray into a neighboring fairway. It may hit another player in the process. Many experts today advocate protective helmets on the golf course.

Then there is the matter of the powered golf cart—a boon to many elderly players with chronic heart or lung disease who would otherwise have to give up the game. Since these carts have only three wheels, they may tip easily, especially

when driven on a slope or in the rain.

It also ensures the contact. If West continues spades, South will make two spades and two clubs for your diamonds and two clubs for your hearts.

Ernie Rovaire gives a good example of it in a new book.

With eight points and a five-card suit, North has a proper

# Washington News

BY LYLE C. WILSON  
United Press International

The modern Republican or eastern effort to count Sam Goldwater out of the contest for the presidential nomination is running aground on the political facts.

facts are that Goldwater now has the most Republican national convention delegates committed to him and reasonably can expect many more by convention time. If ever there was a front runner in politics, it is the junior senator from Arizona.

The Goldwater committee has regrettably with much satisfaction.

"Such Vice President Richard Nixon and President Johnson are now admitting that Sam Goldwater's lead for the national convention delegates must be hard to beat.

President Johnson said recently at a news conference that a man knowledgeable in public affairs had advised him that Goldwater could reach 632 votes—just 23 short of the 655 needed to nominate—by winning the California June 3 primary.

Lodge's influence was a vital factor in producing Dwight D. Eisenhower in 1952 to confront and defeat Adlai E. Stevenson. The convention conservatives will be uttering in anger this year, here we go again!

"Nixon agreed. He said victory in the California primary would give Goldwater a decisive lead."

Nixon's said he would be compelled to nominate for president. Not so with Ambassador Henry Cabot Lodge who appears to be the man the Goldwater stoppers finally will settle upon. The stoppers need "Lodge" in the California primary.

If Lodge were entered in California and won the contest, he might be off and away to certain nomination for president. Not so with Ambassador Lodge.

The political atmosphere is queasy feeling that Rockey's divorce and remarriage have damaged his political goals.

So it is that stop-Goldwater speculation turns most often to Lodge despite his blandishments. One of these: To nominate Lodge would split the Republican party with the increasingly sticky West.

Another: How will the modern Democrat such as Lodge hold to the party the Republican conservatives? The conservatives have been kicked around far and wide and are convinced now that it is their turn to do some kicking.

Lodge's influence was a vital factor in producing Dwight D. Eisenhower in 1952 to confront and defeat Adlai E. Stevenson. The convention conservatives will be uttering in anger this year, here we go again!

raise from one to two no-trump and South goes on to game with 17 points in hand.

West opens the king of spades and South must duck. This play constitutes the Bath coup because if West continues spades

place. While some radar of a very advanced type apparently has been removed, the same radar that operated in conjunction with the shooting down of the U-2 is functioning.

The belief of the intelligence community is that the Soviets operate on a two-key system similar to that employed by Washington. When the howitzer "Snow and Jupiter" was placed in Turkey and Italy and the "U-2" was shot down in Cuba, the Americans had to bring in the White House and President Eisenhower had approved the flight.

The assumption within the government is that Castro would not be so foolhardy as to try to shoot down a U-2 and invite American attack. Western diplomats with missions in Havana take a sterner view. They think the temperamental Castro is unpredictable. In trouble with his economy, he might impulsively decide to precipitate an international crisis as a way out and a way to get a firmer commitment from the communists.

Another attack put on faith is that Khrushchev would react to an American military reprisal for the downing of a U-2 with acts of violence, such as shooting down a U-2 with clubs.

Another aspect of the American military reprisal is that Khrushchev would react to the downing of a U-2 with clubs.

# Eisenhower Proclaims Neutrality in GOP Presidential Race

**MARSHFIELD, Pa., May 14** — Former President Dwight D. Eisenhower today proclaimed his strict neutrality in the Republican presidential race and said he would not try to "dictate" a choice for the party's nomination.

Speaking to Pennsylvania after a five-month winter stay in California, the general said:

"I would be neither 'practical' nor 'wise' to pick a candidate,

and expect all the Republicans,

and even a herd of sheep, to run

that way."

At an impromptu news conference held as he alighted from the private railroad car which had carried him from the west coast, Eisenhower pledged support to the choice of the GOP national convention, rejected speculation he would become part of any "stop movement" and said President Johnson could be beaten with the "right combination" of platform and candidates.

Summing up his position, the

former chief executive said: "I just know who ever is nominated I am going to support. And I don't want to be forced, I am an ex-politician—I should not be in the position of trying to dictate to the Republican party what it should do, any this is the man and expect all Republicans, in a herd of sheep, to run that way."

When queried by newsmen on reports of GOP plans for his leadership, Eisenhower said:

"Does leadership necessarily

mean putting your finger on the actual person?" Further dashing the hopes of various GOP factions which had hoped for his support, he said: "I, by no means, believe it is proper for me to say this is the man and expect all Republicans, in a herd

of sheep, to run that way."

mean putting your finger on the actual person?" Further dashing the hopes of various GOP factions which had hoped for his support, he said: "I, by no means, believe it is proper for me to say this is the man and expect all Republicans, in a herd

of sheep, to run that way."

front runner for the nomination at the convention opening July 13 in San Francisco. But the general described his movement as "only kind of thing." "I am hoping that the Republican party, in the mainstream of its thinking, will decide who they want and the kind of platform they want."

Eisenhower said he has no immediate plans to meet with

Seranton who has stated he

will seek a draft, but the general said: "I'll probably see him in the near future just as a matter of accident if nothing else."

Eisenhower said his neutral position reflected a desire not to do anything "divisive in the party." He said he expects to do "exactly as I am doing" but when asked about a possible switch of positions he said:

"Everybody knows I like to run. I urged him to run for the Royalty. I think he is a very capable person but I think Scranton as his choice went out of his way this morning to end others."

"That I never predict. I don't know exactly what I am going to do in the future."

## Biology Expedition to Mexico Slated by C. of I.

COLLEGE OF IDAHO, Caldwell, May 14—Applications are now available at the College of Idaho for the seventh field biology expedition to Mexico, June 8-Aug. 11, 1965. Dr. Robert Bratz, College of Idaho biology professor, announced today.

Dr. Bratz will serve as expedition leader, with an assistant leader, guest lecturer, graduate assistant and camp manager yet to be named. There will be room for 22 or 23 students.

Applications will be accepted

## Plans for Bulk Tanks Explained

RICHFIELD, May 14—Richfield village board members were informed of the type and number of Texaco gas and oil tanks to be installed one block south of highway 32A and west of third street at a special meeting Monday night.

Members granted permission for the installation to Robert Adamson, Carey, who reported four tanks would be installed.

Three 8,000-gallon and one 10,000-gallon capacity. Tanks are to be approved by fire underwriters and made of heavy steel equipped with emergency valves on all tanks.

They will be located between the Texaco service station and Snack Shack gate. No objections were raised by adjacent property owners and it was noted the fire ordinance does not pertain to locations where tanks are to be installed.

Theo B. Bush, village clerk, informed the board of the resignation of Judge William L. Austin, Shoahorn. A new judge will be appointed at the June 1 meeting.

## Boise Man Will Speak At Fairfield

FAIRFIELD, May 14—Dr. A. H. Chatburn, dean of Boise junior college, will deliver the commencement address at 8 p.m. Monday in the high school gymnasium for the 1964 graduating class of Camas County High School.

Mrs. William A. Simon and the Rev. W. James Post will present vocal duet. Sharon McCommon is accompanist. Marilyn Jones will give the valentine address. Anna Canan, State school, will sing a special number.

Invocation will be offered by the Rev. Mr. Post and the benediction will be given by Bishop Edward L. Packham.

Harry Durrell, superintendent of schools, will present the class. Diplomas will be awarded by Everett Coates, chairman of the school board. The processional and recessional will be played by Jon Becker.

Seniors include Cheryl Bauch, Marilyn Costella, Gwen Cox, Diane Denney, Mary Floyd, Steven Howard, Fred Johnson, Larry Jones, Marilyn Jones, Diane Krah, David Knowlton, Richard Lee, Scott Lewis, Sharon McCommon, Milch Perkins, Tanya Robinson, Ted Thornton, Gordon Vanek, Connie Williams, Sandra Wilson and Lee Wilson.

Phil Brackenbury is class adviser. The class motto is "Adventure to Success." The class colors are lavender and white with the lavender lilac as class flower.

## Hearing Due

A hearing will be held at 1:30 p.m. June 4 in the board room, Twin Falls city hall, to determine if an Idaho public utility commission common carrier permit should be reinstated to C. W. Stolzenberg, Kimberly.

Stolzenberg, through his attorney, Lawrence J. Quinn, Twin Falls, filed the hearing to determine if the permit, which was denied him June 8, 1963, should be reinstated.

LYNWOOD

SHOTGUN RIDER Joe Abraham, Deadwood, is one of six men with the Denver-to-Deadwood stagecoach. They are making a 34-day, 650-mile trip in observance of South Dakota's 75th jubilee. After several days on the trail, Abraham finally got a bath, but duty was ingrained, and the 16,000 silver dollars carried on the coach didn't get out of his sight. (AP wirephoto)

## 3 Republican Presidential Contenders Woo Oregon

PORTLAND, Ore., May 14 (UPI) — Chase Smith of Maine also are three Republican presidential contenders make final plays by staged no-campaigns.

Rockefeller has spent a month courting Oregon Republicans. With the primary a few hours away, two of his children — Ann Pieron and Rodman C. Rockefeller, both of New York City, came to Portland Wednesday night.

Goldwater's sons Barry, Jr. and Michael have been the anchor men of his campaign here. The senator himself has not been in Oregon since April 7. He canceled later campaign trips, saying he had to stay in Washington because the cause will only with the civil rights bill.

He drummed it up public opinion pollsters reported other candidates were courting the Oregonians in their drive to Ambassador Henry Cabot Lodge in South Viet Nam.

"I'm very encouraged," Rockefeller said Wednesday. "Lodge is down in the polls. I'm optimistic. Things are getting better."

George Cabot Lodge, son of the favored ambassador who was the 1960 Republican choice for vice president, hurried to Oregon to declare his father would answer with force and clarity if the party called upon him to head its 1964 ticket.

Oregon allies of former Vice President Richard M. Nixon and Arizona Sen. Barry Goldwater talked optimistically of their men's chance.

Pennsylvania Gov. William W. Scranton and Sen. Margaret

Nixon Oregon supporters were buoyed by the 1960 nominee's surprise showing in the Nebraska primary Tuesday.

Nixon captured 31 per cent of the Republican vote in Nebraska, Goldwater, alone on the ballot, won that primary with 50 per cent of the turnout.

Rockefeller aimed his strongest words at Goldwater.

He told a cheering crowd of 900 at the University of Portland Wednesday night he fears the Republican party "is in serious danger of being dominated by a narrow, doctrinaire, radical extremism outside of the mainstream of American political thought and action."

He coupled that with a sharp attack on his absent opponents. "Whoever's next stand?" he asked.

"Is the primary being replaced by the poll—the public opinion poll?"

## Firemen to Meet Sunday At Wendell

WENDELL, May 14—E. E. Parr, Wendell city and fire chief, announced today that Wendell firemen will be host to the annual convention of Southern Firemen-Patriots Association Sunday.

The association includes 10 departments and about 130 firemen are expected to be present, said Parr. Officials from the Idaho rating bureau and representatives from several fire equipment companies will be present.

Business sessions are slated from 9 to 11 a.m. at the fire station. The annual auxiliary will meet simultaneously at the Legion hall. The banquet for both groups will be served at the grade school all-purpose room with the Idaho Rebekah Lodge No. 99 catering. A program will follow the banquet.

The afternoon will be spent socially at the Legion hall with both groups attending.

## Hailey Woman Attends Confab

HAILEY, May 14 — Mrs. Earl Detmer, office secretary of the Blaine County Hospital, left early Wednesday morning for Moscow to attend a conference of the American Hospital association accountants.

Mrs. Detmer, who is Idaho secretary of the association, was in Jerome by Sister Mary Ida of the Jerome hospital and they joined a group in Boise going to the meetings. which will be held Thursday and Friday.

Mrs. Detmer will attend similar meetings in Pocatello May 21 and

## Basque Festival Set June 27

KETCHUM, May 14 -- Robert R. Glenn, chairman of the advertising committee of the Ketchum-Sun Valley Chamber of Commerce-sponsored Basque festival to be held June 27, announced at the chamber meeting at the Alpine cafe Wednesday noon that June 1 is the deadline for all advertising to be turned in to the chamber.

The chamber will sponsor the annual Fisherman's ball June 13.

the subject of Main street parking, saying most of the parking space is now occupied by employees of the different business houses. After discussing the matter no decision was reached.

President Gene Miller requested a special meeting be held tonight (Thursday) to make final arrangements for the Basque festival and the Fisherman's ball.

## Baccalaureate Slated Sunday For Fairfield

FAIRFIELD, May 14 -- Baccalaureate services will be held at 8 p.m. Sunday in the high school gymnasium for the 1964 graduating class of Camas County high school.

Mrs. Helen Wilson, dean of women at the Northwest Nazarene College, Nampa, will be the

featured speaker. Special vocal numbers will be presented by Mrs. Dean Funk and Leaile Barholomew.

Bishop Edward L. Packham of the Fairfield LDS ward will give the invocation and the Rev. W. James Post, pastor of the Community church, will "give" the benediction. Processional and recessional music will be played on the piano by Jon Baker.

The services are open to the public.

MIL AND MRS. STEVEN B. JOHNSON  
(Davis photo)

## Amy Westfall, Johnson Recite Nuptial Promise

JEROME, May 14—Amy Louisa Westfall, daughter of Mr. and Mrs. Carroll Westfall, Jerome, became the bride of Steven B. Johnson, son of Mr. and Mrs. Blaylock Johnson, Smithfield, Utah, May 1 in a ceremony performed at the Idaho Falls LDS temple.

The couple was honored at an open house reception at the home of the bridegroom's grandmother, Mrs. Warren S. Tew, Shelley.

A wedding reception was held May 3 in the Idaho Falls LDS church. The bride wore a dove-gray chiffon gown decorated with "Chiffon lace" appliques made by her mother. The fitted bodice dipped to a V at the waist back and the floor-length skirt was accented with unpressed pleats. Her fingertip veil of illusion was held by a tara of chenille and rhinestones. She carried a bouquet of white daffodils tied with pink ribbon streamers. She wore a pearl necklace, a gift from the bridegroom.

Bridal attendants were Linda Westfall and Mary Ann Westfall, sisters of the bride, and Sharyl Johnson and Lynette Johnson, sisters of the bridegroom. They were dressed in identical street-length gowns of pink brocade enhanced with pink and lavender orchid corsages fashioned by the bride's mother. David Westfall, brother of the bride, was best man.

The bride's mother wore a green bell-shaped suit. The bridegroom's mother chose a printed black and white afternoon dress. Each wore a corsage of pink carnations.

Joyce Harmon and Susan Black were in charge of the guest-book gifts were displayed by Mrs. Diane Xerxes, mother of the bride. The three-tiered wedding cake was baked and decorated by Mrs. Aubrey Shockley. It was decorated with pink roses and sugar bells and finished by three heart-shaped cakes.

The bride's table was covered with a white lace cloth.

Small refreshment tables were decorated with white hyacinths and lavender iris centerpieces.

Refreshments were served by Mrs. Shockley, Mrs. Joseph Lambart, Mrs. Robert Durham, Mrs. Joseph Thompson and Mrs. Georgia Nye, all aunts of the bride.

Joseph Lambert was master of ceremonies for the program.

Out-of-town guests attended from Rexburg, Pocatello, Paul,

"If you plant it  
or feed it...  
**GLOBE SEED**  
WILL HAVE IT"

## Mrs. Hill Is President of Methodist WSCS

BUIHL, May 14—Mrs. Wilbur Hill was elected president of the Buhl-Meridian Woman's Society of Christian Service when the group met in the fellowship hall of the church.

Other officers are—Mrs. Gary Grindstaff, vice president; Mrs. Kenneth Fawcett, secretary; Mrs. John—Miracle, treasurer; Mrs. Jack Skinner, secretary of studies; Mrs. youth work; Mrs. Gene Holt, secretary of promotions; Mrs. Dorothy Waver, secretary of missions; Mrs. Alice Koenig, secretary of church social concern.

Mrs. Donald Wright, secretary of spiritual life; Mrs. William Miller, secretary of supply work; Mrs. Robert Peterson, courtesy chairman; Mrs. Warren McConnell, membership chairman; Mrs. Alfred Iverson, secretary of literature; Mrs. Wayne Aland, publicity, and Mrs. Lawrence Roubink, and Mrs. Chester Hobson, nominating committee.

Circle chairmen are Mrs. Ward Moffett, and Mrs. William Chambers, Martha circle; Mrs. Robert Peterson, Euclid circle; Mrs. Kenneth Shrader and Mrs. Rockwell, Priscilla circle; Mrs. A. S. Karloff, Harmony circle, and Mrs. Lawrence Laughmiller, Naomi circle.

Naomi circle members will meet May 21 for dinner at the home of Lucille Huston, with Mrs. Donald Dietz as co-hostess. Mrs. Robert Jones, youth secretary, reported the dinner for Methodist graduating seniors will be held Thursday at the home of the Rev. and Mrs. Warren McConnell.

A communism was read during "Sunday school" tea party to attend the lab school June 21 through 25 at Caldwell. Reports on the WBCS conference held at La Grande, Ore., were given by Mrs. McConnell and Mrs. Hiltz. Mrs. Tod, secretary of promotions, presented a certificate of merit to the group from the Idaho conference.

Plans were completed for the annual WBCS guest day luncheon on Thursday. Officers will be installed.

Murforie Dillmitt, retired missionary from India, spoke to the group on her experiences and her work as an English teacher at the Isabell Thoburn college, Lucknow, India. Mrs. Jack Skinner led the devotional

service. The Castleford women were special guests.

A tea was served under the direction of Harmony circle.

BUZAN VANDEVENTER

## Valley Miss, Cottom Plan May Wedding

PAUL, May 14—Mr. and Mrs. N. Vandeventer, Paul, announced the engagement and forthcoming marriage of their daughter, Buzan, to Larry Cottom, son of Mr. and Mrs. C. E. Cottom, Rutherford.

A May 29-wedding date is set.

\* \* \*

## Guardian Meet Held in Valley

SHOESHONE, May 14—Guardians of the local Camp Fire Girls and Blue Bird groups met at the home of Mrs. Charles Hansen for a special meeting.

Mrs. Ruth Vandenberg, Twin Falls executive secretary of the Twin Falls council, was present and spoke to leaders. She also reported on the 4th annual meeting held in San Francisco.

There are four Camp Fire Girl groups and two Blue Bird groups in the community now. Mrs. Roger Stoddard is a new ladder replacing Mrs. Lee Chaper, who is moving from the community.

The next guardian's meeting will be held June 12 at the home of Mrs. Leon Pausch.

Services. The Castleford women were special guests.

A tea was served under the direction of Harmony circle.

# Stock Market and Financial Report

## Stocks

**NEW YORK.** May 14 UP.—The stock market closed lower today but more stocks rallied above their lows and there were some strong-gains. Trading was active.

Volume for the day was estimated at \$1 million, up from \$850 million. Wednesdays.

Loses of fractions to a point or more among assured blue chips depressed the average.

Dow Jones was a 2-point loser.

Kodak was down more than a point. General Motors and Montgomery Ward were off about a point each.

Cigarette stocks were steady except for Pan American up more than a point. Calumet and Hecla pored its worst loss and was off a fraction. Texas Gulf Sulphur rebounded a couple of points.

IBM declined about 2 and Zenith well over a point.

Havoc Industries spurted 2 points along with Litton Industries.

Among fractional losers were Cities Service, Bethlehem Steel, Consolidated Edison, Royal Dutch, Pennsylvania Railroad, Schering-Clark Data, Raytheon and Boeing.

Prices were mixed on the American Stock Exchange in moderately active trade.

Corporate bonds were mixed. U.S. government bonds were unchanged.

# Boise Favored in Track Meet Saturday; Bruins, Borah Battle for Second

The undefeated Boise Braves, despite a gaping void in the field events, are favored to win the southcentral regional track and field championships here Saturday at 10 a.m., and the running events, as there are no finals, will not begin until 1:15. Both A and B athletes will participate; the divisions alternating.

The Southern conference schools of Borah, Nampa, Caldwell and Twin Falls, though they dominate this event, have some teams, Meridian and Canyon, managed to individuals or relay teams in the four schools in the district while Twin Falls has 29 possible spots in the third district.

Team figures to get field points in the pole vault, but the set of runners, except one, fail to qualify in 11 of 12 track events for the state meet next week. Only first two placed in each advance to state.

Even the Braves' champion express other Twin

is-Borah would have to win the field events for every point added still would give some major Boise results in running. But the Lions and Lions will be fighting it out mostly in the field events. They collide in the shot put with Twin Falls hoping to run down two, and Curtis Eaton and Ron Wilson could knock Wilson from No. 2 spot. Wilson looks as though to Borah's one-two in the discus where the

have Steve and Rick Wilson, who hit 164 feet, both last week, could hurt Lions there. But all three, with Nampa's Ulrich, make the state quality standard of 187 feet and none to state.

Wilson also brings numbers and entry in the high jump and in Falls' Bob McClosky, who

and 6 feet 1 inch last week, will be battling them for the

All that Twin Falls-Borah will help Boise and it could also decide the runner-up trophy winner.

The third district again figures to give the fourth district a challenging, despite

in fact Twin Falls won the regional last year. But the Lions will be challenging for second this year largely on numbers, having swept all three places in two events and running one-two for others. They also had two competitors in first and the 440-yard dash and broadjump.

At least record records already have been broken and there is a possibility of two more, both Larry Corbridge, Boise, and Randy Ron. In fact, have been under the 14.9 in the high hurdles and Corbridge, and McClosky have beaten 19.8 in the

Tom Banks, Caldwell, went 1:01.6 last week against 2:01.6 on record books and Terry odds. Twin Falls; Morrow, 1:01.6, and Swaine, Nampa, all along the 4:36.8 mile mark. At Dodds' ability has been more than limited by an allergy to use and the Bruin junior may be trouble matching any of earlier times.

In the relays, Boise, Borah and Nampa have beaten the

in the 440 and 400 relay and the 300 relay in the mile and six-quarter mile, week-end.

The two field marks of trouble are the shotput and discuss. Eaton, Twin Falls, managed Idaho's all-time best at 6 feet, 2 inches last week and the 15-foot, 6-inch shotput standard and Steve Smith, Borah, has bettered the 100-foot, 6-inch discus mark on several occasions.

One other could go and if so winner would also become Idaho's best all-time quarter-mile. The Double, with a 50.2 at weekend, is within three-tenths of a second of the record.

Art Fleischer, Nampa, set in 58. Fleischer also is the last man in the state to better 50 seconds.

Regional records include:

## Bank Official Talks at Buhl C. of C. Meet

**BUHL**, May 14 — Robert V. Pence, manager of the Buhl branch, Farmers National bank, stated: "Positive thinking and an optimistic attitude by the merchants and businessmen will contribute to a better business climate in Buhl" when he spoke on economic growth and trends in Buhl and Magic Valley during the local Chamber of Commerce luncheon meeting Monday at the Buhl Inn.

Pence also mentioned his irrigation development on Salmon Falls Creek which will eventually add 4,600 acres of land under cultivation in the area. He also cited the recent increase in bank deposits, increase in savings account, and increase in building and loan funds in the Magic Valley area.

Andrew Anderson, in speaking on business conditions here, noted the poor sales in the Buhl area was the best in competition in 67 other towns in the Utah-Idaho area.

Dr. Garth Atwood, chairman of the agriculture committee, recommended that the monthly farmers meeting be discontinued during the summer months and resumed again in the fall.

Robert Erkkin reported on the successful conclusion of the Boy Scout fund drive noting the financial position of Buhl Scouts is the best in years.

Morrell White was named program chairman for the May 18 meeting.

## Automotive Club Elects Officers

**FILER**, May 14—Raymond Justlin was elected president of the Automotive 4-H club at the meeting held Monday at the home of Terry Theener.

Ronnie Theener was elected vice president; Byron Carrier, treasurer; Jerry Theener, secretary, and Terry Theener, reporter. Eugene Griff is leader.

Mrs. Theener served refreshments.
